

IBM i – f_MTD

Making Tax Digital – MTD

From 1st April 2019, UK VAT registered businesses with a taxable turnover above the VAT threshold (currently £85,000) are required to use HMRC's Make Tax Digital service to keep records digitally & use specialist software to submit their VAT returns.

We work closely with HMRC to help make digital VAT submission easy & we are delighted to be recognised, by HMRC, as a supplier of Making Tax Digital compliant software.
